

Curriculum Vitae

First name: Zahra

Last Name: Esfandiari

Date of Birth: 17/06/1976

Sex: Female

Marital Status: Married

Nationality: Iranian

Office Address: School of Nutrition and Food Science, Isfahan

University of Medical Sciences, Hezar Jarib Street, Isfahan, Iran

Office Telephone: 0098-3137923155

E-mail: [research_esfandiari\(at\)mui.ac.ir](mailto:research_esfandiari@mui.ac.ir) , [z.esfandiari\(at\)nutr.mui.ac.ir](mailto:z.esfandiari@nutr.mui.ac.ir),
zesfandiary24(at)yahoo.com

Website: https://isid.research.ac.ir/Zahra_Esfandiari

Languages: Persian (Farsi-native), English (Fluent)

Research of Interest: Food Science, Food Technology, Food Safety,
Food Education

Academic Qualifications:

- B.Sc. in Food Science and Technology; Shahid Beheshti University of
Medical Sciences, Tehran, Iran, 2000.

- M.Sc. in Food Science and Technology; Shahid Beheshti University of Medical Sciences, Tehran, Iran, 2006.

- Ph.D. in Food Science and Technology; Islamic Azad University, Science and Research Branch, Tehran, Iran, 2014.

Employer:

- Technical assistant in Shonadasht (Sauce manufacturing) food processing plant (1999-2002).

- Production manager in Kaleh (Dairy manufacturing) food processing plant (2002-2003).

- Quality control manager in Shoara-namaki (Biscuit manufacturing) food processing plant (2003-2005).

- Head of Department of Research and Development, Vice Chancellery of Food and Drug, Isfahan University of Medical Science, 2009-2020

- Editor of Journal of Health System Research, 2019-present

- Member of Food Security Research Center, School of Nutrition and Food Science, Isfahan University of Medical Science, 2020-present

- Assistant Professor, Faculty Member of Department of Food Science and Technology, School of Nutrition and Food Science, Isfahan University of Medical Science, 2020-present

Honor:

- Scientific member of the national congress of “new technologies of food in processing, packaging and preservation”. Iran. 2014.

- Scientific member of the national congress of “improving shelf life of food products with emphasis on decreasing the use of preservatives”.

Iran. 2011.

Book:

- Mirlohi Maryam, **Esfandiari Zahra**. Modern Hygiene System in Catering Industry. 2016. ISBN: 9789645245762.

- Jalali Mohammad, Esfanidari Zahra. Missing Microbes. 2017. ISBN: 9789645246141.

- Statistical indicator of Isfahan University of Medical Sciences. Publication of Isfahan University of Medical Sciences. ISBN: 9789645246244

Thesis/ Dissertation:

Supervisor

- MSc thesis entitled “Investigation of mean of sodium benzoate in Doogh distributed in Isfahan by high performance liquied chromatography (HPLC)” approved in Islamic Azad University Shahreza Branch.

- PhD Dissertation entitled “Examination of contamination rate, resistome and genetic variation of Clostridium difficile strains in raw prepared meat products (chicken, meat, shrimp, fish, ostrich and quail nuggets) supplied in Isfahan” approved in School of Veterinary Medicine, Islamic Azad University Shahrekord Branch.

- MSc thesis entitled “Prevalence of foodborne strains of Escherichia coli in milk and dairy products distributed in retail stage of Isfahan city and determination of antibiotic resistance and biofilm formation” approved in School of Nutrition and Food Science, Isfahan University of Medical Sciences.

Advisor

- PhD Dissertation entitled “Examination of some chemical (trans, saturated and unsaturated fatty acids) and microbial criteria (Enterotoxins of S. aureus) affected on health, in traditional sweets distributed in Isfahan” approved in School of Veterinary Medicine, Islamic Azad University Shahrekord Branch.

- PhD Dissertation entitled “Influence of Frying on Health Indices (Saturated, Unsaturated, Trans Fatty Acids and Heavy Metals) in Fast

and Traditional Foods Distributed in Isfahan City and Their Risk Assessment on Health” approved in Islamic Azad University Najafabad Branch.

- PhD Dissertation entitled “Examination of contamination rate, resistome and genetic variation of *Clostridium difficile* strains in meat and feces of chickens in Iran” approved in School of Veterinary Medicine, Islamic Azad University Shahrekord Branch.

- MSc thesis entitled “The study of distribution of *Clostridium difficile* in ready to eat salads in Isfahan city” approved in School of Nutrition and Food Science, Isfahan University of Medical Sciences.

- MSc thesis entitled “Determination of classical enterotoxins of *Staphylococcus aureus* in meat products manufactured in meat processing plants with different qualitative grades by ELISA (Enzyme-linked Immune Sorbent Assay) method in Isfahan city approved in Islamic Azad University Shahreza Branch.

- MSc thesis entitled “Evaluation of food processing plants by implementation of pre-requisite programs to establish food safety management system in Esfahan (Case study: Meat products and can processing plants) approved in Sepahan Institute of higher education.

- MSc thesis entitled “Investigation of vegetable oil effects on physicochemical properties and the amount of trans fatty acids in wafer’s cream” approved in Islamic Azad University Khorasgan Branch.

- MSc thesis entitled “Effect of sesame oil extraction process in traditional method and cold press on total aflatoxin” approved in School of Nutrition and Food Science, Isfahan University of Medical Sciences.

- MSc thesis entitled “Influence of education on knowledge, attitude and practice of employers of Isfahan University of Medical Sciences in relation to food additives; 2019” approved in School of Nutrition and Food Science, Isfahan University of Medical Sciences.

- MSc thesis entitled “Evaluation of fat quality in ready-to-eat foods in Isfahan restaurants and its relationship with health checklist rating of deli” approved in School of Nutrition and Food Science, Isfahan University of Medical Sciences.
- MSc thesis entitled “The effect of education on the knowledge, attitude and practice of students about Genetically Modified Food of Isfahan University of Medical Sciences in 2018-2019” approved in School of Nutrition and Food Science, Isfahan University of Medical Sciences.
- MSc thesis entitled “Effect of Education on Knowledge, Attitudes and Practices of personal working in dairy and beverage processing plants toward food hygiene and food safety in Isfahan city” approved in School of Nutrition and Food Science, Isfahan University of Medical Sciences.

Research Project (Leader):

- 1- **Leader** of research project entitled “The determination of Sodium benzoate, Potassium sorbate and Natamycin in pasteurized Yoghurt drink produced in Dairy Company of Isfahan Province” with number ۲۹۰۱۲۷ approved and funded in Isfahan University of Medical Sciences.
- 2- **Leader** of research project entitled “The determination of Sodium benzoate, Potassium sorbate and Natamycin in pasteurized Yoghurt drink distributed in retail stage of Isfahan” with number ۲۹1069 approved and funded in Isfahan University of Medical Sciences.
- 3- **Leader** of research project entitled “Examination of Clostridium difficile in red meat (goat, camel, cow and mutton) in Isfahan” with number ۲۹1241 approved and funded in Isfahan University of Medical Sciences.
- 4- **Leader** of research project entitled “Determination of benzoic acid in yoghurt by HPLC” with number ۲۹2227 approved and funded in Isfahan University of Medical Sciences.

5- **Leader** of research project entitled “Examination of epidemiology of infection by Clostridium difficile in Iran” with number 294158 approved and funded in Isfahan University of Medical Sciences.

6- **Leader** of research project entitled “Examination of pros and cons of preservatives in foodstuff and their influence on public health” with number 294159 approved and funded in Isfahan University of Medical Sciences.

7- **Leader** of research project entitled “Influence of Education on knowledge, attitude and performance of employees and students of Isfahan University of Medical Sciences on labeling of food and beverages” with number 295204 approved and funded in Isfahan University of Medical Sciences.

8- **Leader** of research project entitled “Influence of education about traffic light and food labeling on knowledge, attitude and performance of food product consumers in Isfahan city” with number 295098 approved and funded in Isfahan University of Medical Sciences.

9- **Leader** of research project entitled “Evaluation of acetaldehyde migration in polyethylene terephthalate packaging of drinking and mineral water” with number 292239 approved and funded in Isfahan University of Medical Sciences.

10- **Leader** of research project entitled “Review Study on Controlling and prevention of novel coronavirus through health and safety protocols in food” with number 299198 approved and funded in Isfahan University of Medical Sciences.

11- **Leader** of research project entitled “Evaluation of Iron in Flour and Bread (Barbari, Taftoon and Lavash) manufactured in Isfahan city” with number 199464 approved and funded in Isfahan University of Medical Sciences.

12- **Leader** of research project entitled “Examination of Iron in Fortified Flour and manufactured bread by Inductive Couple Plasma-Optical Emission Spectroscopy (ICP-OES) in Isfahan” with number 299248 approved and funded in Isfahan University of Medical Sciences.

13- **Leader** of research project entitled “Designing, Manufacturing and Validation of Detection Kit of Escherichia coli in Milk” with number 140019 approved and funded in Isfahan University of Medical Sciences.

14- **Leader** of research project entitled “Epidemiology of Clostridium difficile in farm to fork in Asia continent” with number 198189 approved and funded in Isfahan University of Medical Sciences.

Research Project (Co-Researcher):

1- **Co-Researcher** of research project entitled “Separation and measurement of melamin in dried milk with composite polymeric nano-filters and HPLC” with number ۷91197 approved and funded in Isfahan University of Medical Sciences.

۲- **Co-Researcher** of research project entitled “Examination of Clostridium difficile in ready to eat salat in Isfahan” with number 392234 approved and funded in Isfahan University of Medical Sciences.

۳- **Co-Researcher** of research project entitled “Evaluation of pesticides in cucumbers with QuEChERS and GC-MS” with number 292094 approved and funded in Isfahan University of Medical Sciences.

۴- **Co-Researcher** of research project entitled “Evaluation of phthalate in polyethylene terephthalate packaging of bottled water” with number 192094 approved and funded in Isfahan University of Medical Sciences.

۵- **Co-Researcher** of research project entitled “The effect of Portulaca oleracea hydroalcoholic extract on blood pressure in glucocorticoid-induced hypertension in rat” with number 295104 approved and funded in Isfahan University of Medical Sciences.

٦- **Co-Researcher** of research project entitled “Evaluation of resistome and genotypic profile of *Clostridium difficile* isolated from clinical, meat and sweage in Tehran” with number 20315 approved and funded in Isfahan University of Medical Sciences.

7- **Co-Researcher** of research project entitled “Assesment of molecular epidemiology of *Clostridium difficile* isolates by application of multilocus sequence typing analysis on hands of healthcares and the environment of diarrhetic hospitalized patients in selected hospitals (Sayedshohada, Ali-Asghar, Alzahra, and Imam Moosa Kazem) of Isfahan, Iran in 2015” with number 295020 approved and funded in Isfahan University of Medical Sciences.

8- **Co-Researcher** of research project entitled “Evaluation of Knowledge, Attitudes and Practice of Workers in Catering of University of Medical Sciences Toward Safety and Health Indices” with number 197160 approved and funded in Isfahan University of Medical Sciences.

Seminars and Presentation:

More than 100 abstracts and full text presented in congresses and seminars as posters and oral presentation.

Teaching Area:

Teaching of more than 100 credits about food science, food technology and food safety in the last 10 years.

Executive Experience:

- Collaboration in preparation of province document entitled “Health program and quality improvement of life in Isfahan province based on 5 year Iran development program (2015-2020).
- Collaboration in preparation of province document entitled “Non-communicable disease and risk factor in Isfahan province (2018-2023).
